Training Module(s)	E-learning JCX-161 BNWAS - Basic
Target group	Service Engineers
Location	Online via e-learning
Study load	4 hours
Price	\$400.00,- per person

DESCRIPTION

This training examines the basic operation, general outline, installation and commissioning of the JCX-161 BNWAS.

CURRICULUM

Some of the key points covered in this training (in both theory and practice) are:

- System introduction
- Basic operation
- General outline
- Installation (Mechanical, electrical and commissioning)

ENTRY REQUIREMENTS

- Basic understanding of Alarm Management systems
- Basic understanding of BNWAS
- Service engineer must be employed at distributor in Europe, Russia, Africa or Middle East
- Employer of the service engineer has a contract or MoU with Alphasatron Marine/JRC in force
- Service engineer is recommended to have at least one year of field experience

APPLICATION

The engineer can apply for this training by registration on the JRC website.

Please note that it is important to fill in the personal work e-mail address of the engineer. We can use an e-mail address only once for one account in our portal so when you would like to register more engineers now or in the future for our e-learning modules, it will not be possible with the same e-mail address.

CERTIFICATION

A certificate will be issued endorsing the engineer to install and commission the JCX-161 when they have completed the e-learning module successfully.
