

Training	E-learning AlphaPilot MFM - Basic
Module(s)	AlphaPilot MFM
Target group	Service Engineers
Location	Online via e-learning
Study load	4 hours
Price	€350,- per person

DESCRIPTION

This training examines the basic operation, general outline and installation for electrical and commissioning of the AlphaPilot MFM.

CURRICULUM

Some of the key points covered in this training (in both theory and practice) are:

- System introduction
- Basic operation
- General outline
- Installation (electrical and commissioning)

ENTRY REQUIREMENTS

- Basic understanding of Autopilot
- Basic understanding of steering system
- Service engineer must be employed at distributor in Europe, Russia, Africa or Middle East
- Employer of the service engineer has a contract or MoU with Alpatron Marine/JRC in force
- Service engineer is recommended to have at least one year of field experience

APPLICATION

The engineer can apply for this training by registration on the JRC or Alpatron website.

Please note that it is important to fill in the personal work e-mail address of the engineer. We can use an e-mail address only once for one account in our portal so when you would like to register more engineers now or in the future for our e-learning modules, it will not be possible with the same e-mail address.

CERTIFICATION

A certificate will be issued when the engineer has completed the e-learning module successfully.
