## DESCRIPTION

These are several tests which you can take online via a link we will provide you after we received your application. You can take each test separately. Certificate will be issued after completion of each test. The cost for each test will be €20,- and you will have two tries to complete the test with 100% score. If you fail both tests, you will be able to retake the test after a two months' time-out for another €20,-. We will send the links to the test environment and to the manual download location after receipt of the payment.

## Procedure to apply for the ProLine Training online

- Go to <https://www.jrc-europe.com/en/training/rotterdam/proline-training/>
- Choose either 'ProLine Training Classroom' (CAT A) or 'ProLine Training online' (CAT B)
- For 'ProLine Training online' click on 'Sign Up'
- Fill in the requested details in the application form
- Click on 'Sign up'
- The request will be send to our Training department
- The Training department will contact you for which training you would like to enlist and where the invoice should be send to
- After receipt of the payment you will receive a username, password and a link for the ProProfs test by email for each equipment you requested
- You will also receive a link so you can download the required Installation and Operation manuals
- For each test you will have 2 tries to complete the test with a 100% score ( as you have the manuals at hand)
- After passing or failing the test you will receive an automated email with the score of your test
- Only if you passed the test you will receive a temporary certificate generated by Proprofs
- A final certificate will be issued later by the Training Department
- After 2 failed tests, you will not be able to do another test for the same equipment for a period of at least 2 month
- After that period you will be able to enlist again as described in this procedure, for these extra tests we will charge you another €20,-
